Versteigerungsbedingungen

Mit der Teilnahme an der Versteigerung werden folgende Bestimmungen anerkannt:

Die angegebenen Preise sind Schätzpreise in Schweizer Franken. Der Ausruf erfolgt in der Regel bei 80%, sofern nicht höhere Angebote vorliegen. Auf den Zuschlagspreis ist ein Aufgeld von 15% zu entrichten; für Auslieferungen in der Schweiz erhöht sich der Endpreis (Zuschlagspreis + Aufgeld und Versandspesen) um die MWST von 7,6%. Goldmünzen (AV) sind von der MWST befreit. Der Gesamtpreis ist nach erfolgtem Zuschlag fällig und bei der Aushändigung in Schweizer Franken zu bezahlen. Für verspätete Zahlungen berechnen wir die banküblichen Verzugszinsen. Der Zuschlag erfolgt nach dreimaligem Aufruf des höchsten Gebotes und verpflichtet zur Annahme. Schriftliche Gebote haben den Vorrang. Jeder Ersteigerer verpflichtet sich für die durch ihn getätigten Käufe persönlich. Er kann nicht geltend machen, für Rechnung Dritter gehandelt zu haben.

Für die Echtheit der Münzen wird vorbehaltlos und zeitlich unbeschränkt garantiert. Alle Angaben im Katalog sind nach bestem Wissen und Gewissen zusammengestellt.

Der Versand erfolgt eingeschrieben und versichert auf Kosten und Risiko des Empfängers. Im Ausland verrechnete Gebühren und Steuern gehen zu Lasten des Käufers. Es obliegt dem Erwerber, sich über ausländische Zoll- und Devisenvorschriften zu informieren. Die Veranstalterin der Auktion übernimmt keine Haftung für allfälliges Zuwiderhandeln solcher Vorschriften. Erfüllungsort und Gerichtsstand im Verhältnis zwischen der Veranstalterin und dem Erwerber ist Zürich. Die Abgabe eines schriftlichen oder mündlichen Gebotes bedeutet gleichzeitig die Anerkennung der Auktionsbedingungen.

Im übrigen kommen die ortsüblichen Gantbedingungen zur Anwendung. Vorliegende Bedingungen liegen in deutscher, französischer, italienischer und englischer Fassung auf. Bei Meinungsverschiedenheiten ist die deutsche Fassung massgebend.

Conditions de la vente aux enchères

En participant à la vente, les conditions suivantes sont considérées comme acceptées:

Les prix indiqués sont des prix estimatifs en francs suisses. La vente débute en principe à 80% du prix d'estimation, pour autant qu'il n'y ait pas d'offres plus élevées. Sur le prix d'adjudication une majoration de 15% est prélevée. En cas de livraison en Suisse, le prix total (prix d'adjudication + majoration et frais d'expédition) est augmenté de la TVA de 7,6%. Les monnaies en or (AV) ne sont pas sujettes à la TVA. Le prix total, y compris les taxes, est payable en francs suisses à la réception de la marchandise. En cas de paiement tardif, nous calculons un intérêt de retard au cours bancaire. L'adjudication a lieu après le 3e rappel de l'offre la meilleure et oblige l'acheteur à prendre son acquisition. A prix égal, les offres écrites ont la priorité. Chaque participant à la vente s'oblige pour les achats effectués par lui-même. Il ne peut faire valoir avoir agi pour un tiers.

Nous garantissons l'authenticité des monnaies sans condition et sans aucune limite de temps. Les indications de notre catalogue ont été faites en toute science et conscience.

L'envoi se fait sous pli recommandé, assuré, aux frais et risques du destinataire. Toutes taxes ou impôts prélevés à l'étranger sont à la charge du destinataire. L'acquéreur doit lui-même s'informer des prescriptions douanières et des taxes du pays d'importation. La maison organisatrice de la vente ne peut être tenue pour responsable au cas où ces prescriptions ne seraient pas respectées. Le domicile juridique entre l'organisatrice et les acheteurs est Zurich, ceci en cas de différences. La remise d'une offre écrite ou verbale signifie en même temps l'acceptation des conditions précitées de vente aux enchères.

Les conditions locales de mise aux enchères seront appliquées et celles-ci sont disponibles dans les langues allemande, française, italienne et anglaise. En cas de différences d'interprétation, le texte allemand fait foi.

Condizioni di vendita

La partecipazione alla vendita all'asta comporta l'accettazione integrale delle seguenti condizioni. I prezzi indicati rappresentano la stima in franchi svizzeri. Se non sono pervenute offerte più elevate, l'inizio di battuta d'asta corrisponde generalmente all'80% circa dello stesso. Al prezzo di aggiudicazione verrà aggiunto un diritto d'asta del 15%. Per le consegne all'acquirente in territorio svizzero sarà aggiunta al prezzo totale (prezzo di aggiudicazione + diritto d'asta e spese di spedizione) il 7,6% d'IVA. Le monete in oro (AV) sono escluse dall'IVA. L'importo complessivo sarà esigibile alla consegna dei lotti e pagabile in franchi svizzeri. In caso di ritardo nel pagamento sarà applicato l'interesse bancario sull'importo dovuto. L'aggiudicazione avviene dopo la terza chiamata della migliore offerta ed obbliga l'offerente ad accettarla. In caso di parità di offerte, avrà la precedenza quella effettuata per corrispondenza. Ogni partecipante alla vendita all'asta è personalmente responsabile degli acquisti effettuati: pertanto egli non può pretendere di avere agito per conto di terzi.

Gli oggetti offerti in vendita sono garantiti autentici senza limiti di tempo.

L'invio degli oggetti viene di regola effettuato in plico postale raccomandato a spese ed a rischio del destinatario, il quale, se residente all'estero, dovrà assumere a proprio carico ogni eventuale tassa o imposta applicata nel paese di residenza. E' onere dell'acquirente d'informarsi sulle prescrizioni doganali e valutarie del paese d'importazione e la società organizzatrice della vendita all'asta non può essere ritenuta responsabile nel caso in cui esse non vengano rispettate.

In caso di controversia è competente il foro di Zurigo. L'inoltro di un'offerta scritta o verbale implica l'accettazione senza riserve delle presenti condizioni d'asta.

Saranno inoltre applicabili le consuetudini locali sulle vendite all'asta, il testo delle quali è disponibile nelle lingue tedesca, francese e inglese: in caso di divergenze di interpretazione farà fede il testo in lingua tedesca.

Conditions of sale

The following conditions are acknowledged by all persons participating in the auction:

The estimates are in Swiss Francs. The opening bids will be about 80% of estimate, unless there are higher offers. The purchase price plus a commission of 15% is due and payable in Swiss currency. For lots delivered in Switzerland, VAT of 7.6% will be added to the total (hammer price together with auctioneer's commission and sending charges). Gold coins (AV) are free of VAT. The total price is due after the final bid and payable on delivery. Late payment of the invoice will incur interest at bank rate. Adjudication ensues after the highest bid has been called three times, and commits the bidder to accept the coins. Written bids have preference over room bids. The buyer cannot claim to act on behalf of a third person.

The authenticity of the coins is unconditionally guaranteed, without time limit. All identifications of the items sold in this catalogue are statements of opinion and made in good faith.

The coins will be dispatched by registered and insured mail for the account and the risk of the purchaser. The purchaser is responsible for any dues or taxes outside of Switzerland and is advised to acquaint himself with the formalities. The auctioneer cannot be responsible for contraventions.

The auction is held in Zurich and any legal questions arising shall be determined in Zurich. A buyer consigning commissions or executing room bids acknowledges the acceptance of the above conditions.

The usual conditions applied to auction sales held in Zurich are here reiterated. The above mentioned conditions are written in German, French and English; the only legal valid text is German.

THE COINAGE OF THE DOGES OF VENICE

SECOND EDITION revised

INTRODUCTION

This present text is intended more modestly as a handbook which will give to collectors and students of Venetian coins as complete a picture as research to date will allow of the money issued in an uninterrupted series by the 83 doges of the Venetian Republic. Short essays illustrating the history of the period in so far as it effects the constitutional or practical position of the coinage accompany the description and illustration of each new type and denomination as they appear, in such a way as to show clearly their origin and development. We are tried to give our pages a practical layout so as to enable the reader to see instantly the issues of each doge with related text and illustrations of the coins. We are noted for every coin catalogued metal, theoretical average weight and rarity. We have added to the catalogue of coins of the doges an appendix listing the coins struck by Carolingian and later emperors in the name of the city and autonomous issues which, even if were not all struck by the mint of the Serenissima, nevertheless have on them the name of Venice. To enable a speedier consultation of the main catalogue, we have grouped at the end of the text, with weights and metal, all the exceptional issues from the Venice mint, in billon, silver and gold, which differ in weight from the norm, and the gold pieces struck with over than zecchino dies. Gold coins of this last type, such as the scudo della croce, the ducattello, the ducatone with Saint Justina and their related fractions used be thought of fantasy pieces, albeit authentic products of the mint, but their weights, full multiple or divisions of the zecchino, lead us to catalogue them as true and proper coins.

THE MINT OF VENICE

INTRODUCTION

The present volume, a companion work to my publication of a year ago, "The Coinage of the Doges of Venice", is intended to give to collectors and students of the Venetian series as comprehensive as possible a catalogue of all the other issues produced by the city from the end of the XVth century until 1866. The known material has been set out in four principal groups, one and two dealing with the osell of, respectively, Venice herself and the island of Murano. Group three considers the difficult and complex "anonimus coinage", all those series of coins without Doge's names issued by Venice from the early 1400's until 1797. These matters I shall discuss in greater detail when I come to the catalogue of the third group, to which I have appended the coinages of Catherina Corner in Cyprus and the Sanudo family in the Dodecanese on account of their close political and historical ties with contemporary Venetian issues. The fourth and last group consist of the coinage of the of the Venice mint from the fall of the Republic in 1797 until the ultimate closing-down of the mint itself in 1866. Each coin type illustrated is accompanied by the description of obverse and reverse, together with metal, actual weight of the coin photographed and rarity. Provenances are given at the conclusion of each section and current valuations are at the end of the catalogue.

THE ROMAN IMPERIAL COINAGE OF AQUILEIA

FOREWARD

The purpose of this work is to provide a photographically illustrated catalogue of all the types and varieties known at the present day of the coinage struck at the imperial mint, *Sacra Moneta*, of Aquileia, established at the time of Diocletian's reform of the monetary system, presumably in order to supply currency to the north-western regions of the Roman Empire. The Aquileia mint was opened, therefore, in 294 and closed at some time before 455, during the reign of Valentinian III. The catalogue proper has been augmented by a historical and numismatic commentary which, however, to avoid the twin danger of incompleteness and error, is merely basic. For fuller information on imperial biographies, the city of Aquileia and numismatics in general, the reader is referred to specialized academic works. Translations from Latin of all obverse and reverse legends are to be found in an appendix at the end of this book. In order to offer a complete but accessible classification of the typology of the surviving production of the Aquileia mint over about a century and half, we have adhered to the following, simple though not strictly scientific, arrangement of the text: 1°) Titulature. 2°) Dating. 3°) Metal. 4°) Denomination. 5°) Mintmark. 6°) Photograph and weight. 7°) Rarity. 8°) Classification.
